

SAW

Submerged Arc Welding

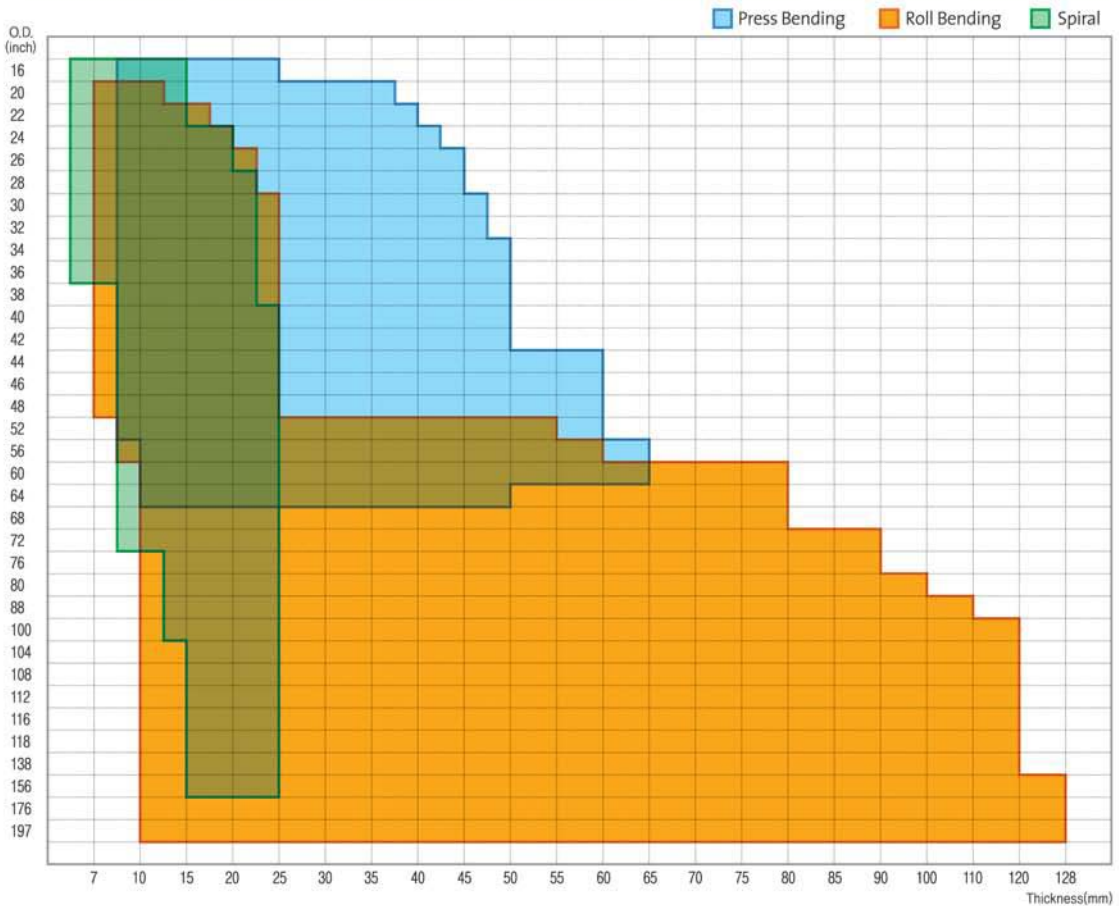

The logo for SeAH Steel is centered on a circular metallic ring. The ring has a 3D effect with a shadow. To the left of the ring is a smaller, similar ring. The background consists of concentric circular lines that create a metallic, brushed texture.

SeAH Steel

● Contact : SeAH Tower, 45 Yanghwa, Mapo-gu, Seoul 121-841, Korea / TEL +82-2-6970-1082, 1073 / E-mail: export@seahsteel.co.kr / www.seahsteel.com

SAW SIZE RANGE

Product	Size Range			Capacity	Location	
	O.D.(inch)	Thickness(mm)	Length (m)			
SeAH Steel Corporation	JCOE	16 ~ 64	Max. 65	Max. 18,288	575,000MT	Korea
	Roll Bending	20 ~ 197	Max. 128	Max. 12.2		
	Spiral	16 ~ 158	Max. 25.4	Max. 70		
United Spiral Pipe	Spiral	24 ~ 64	Max. 25.4	Max. 24.4	270,000MT	USA
SeAH Steel U.A.E.	JCOE	18 ~ 56	Max. 60	Max. 12.8	150,000MT	UAE
	Roll Bending	40 ~ 120	Max. 50	Max. 12		

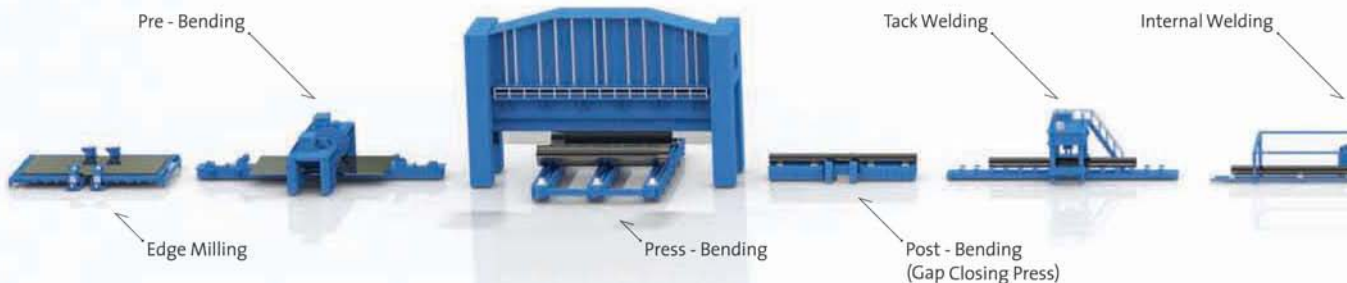

Explore Further, Deeper & Wider!

- Max. 18m Length with Cold Expander (JCOE)
- Max. 128mm W.T. (Roll Bending)
- Max. 158" O.D. (Spiral)
- Make your step profitable

JCOE

- Outside Diameter.....18"~ 64"
- Wall Thickness max. 65mm
- Length max. 18m
- Grade max. X80

JCOE Line

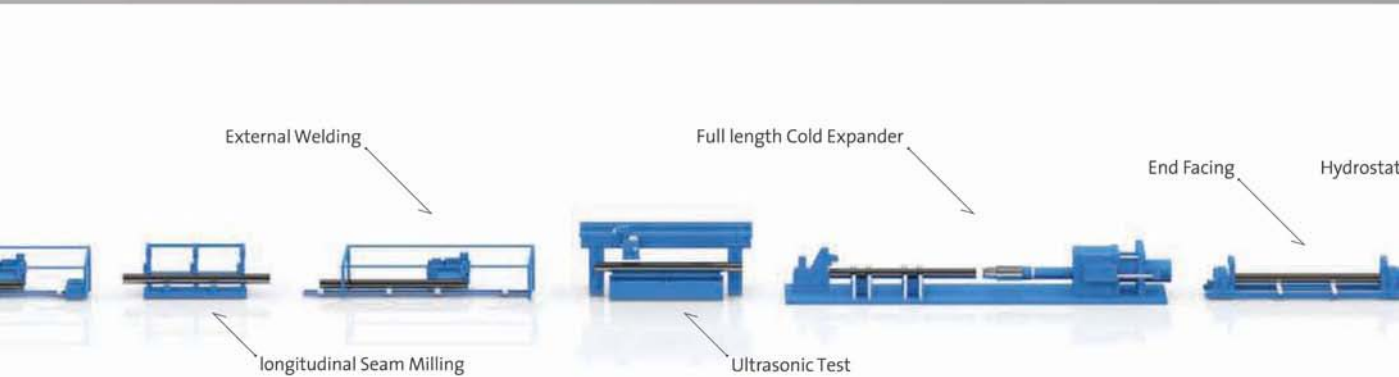

Having Satisfactory Solution

- Variety of Production Type (JCOE, Roll Bending & Spiral)
- 995,000 MT SAW Capacity Per Annum including SSU, USP
- 1,170,000 MT Additional ERW Capacity
- Go beyond your limit with diverse options

ROLL BENDING

- Outside Diameter 20"~ 197"
- Wall Thickness max, 128mm
- Length max, 12.2m
- Grade max, X80

With Reliability

- Over 50 years of history
- Own R&D center for high-end technology
- High Quality Assurance System
- For your trust, **SeAH** sells its pride

SPIRAL

- Outside Diameter 16"~ 158"
- Wall Thickness ... max. 25.4mm
- Length max. 70m
- Grade max. X80
